

Stone Age

Key Changes and Events

3000 BC	The village of Skara Brae is built in Orkney. The people who live there are beginning to farm their own food and build homes instead of travelling from place to place.
	Construction starts on Stonehenge in Wiltshire. It will take around 1000 years for it to be finished.
2500 BC	'Bell Beaker' culture arrives in Britain. These people are named for their distinctive decorative pottery.
2100 BC	Bronze begins to be used in Britain to make weapons and tools.
1800 BC	The first large copper mines are dug.
1200 BC	'Celtic' culture begins to arrive in Britain and tribal kingdoms develop.
800 BC	Iron begins to be used in Britain to make tools and weapons, instead of bronze .
	The first hillforts are constructed.
AD 43	The Romans invade Britain.

Timeline

Stone Age Life

The Stone Age is named after the stone tools that the earliest humans used to help them survive. They used them to kill animals, such as mammoths, for their meat, **bone marrow** and skins. The bones were also useful for making tools, such as needles to sew skins together.

People in the Stone Age moved around from place to place with the seasons, in order to keep safe and warm and to follow the animals they hunted.

Roundhouses

- thick thatch
- door
- wattle
- claud
- timber frame
- upright loom
- hearth (fire)
- beds
- logs for sitting on

Stonehenge

Stonehenge is a famous prehistoric monument in southern England, built at the end of the Stone Age and into the **Bronze** Age. Originally, it was just an **earthwork** and up to 150 people were buried there. The huge stones that we see were added in different stages. Some were brought from 240 miles away in Wales.
